I.	.B	asis of the repor	t	
1.		Vith regard to the elements of the international application:*		
	X	the international	application as originally filed.	
		the description,	pages , as originally filed,	
			pages , filed with the demand,	
			pages, received on with the letter of	
		the claims,	pages , as originally filed,	
			pages , as amended (together with any statement) under Article 19,	
			pages , filed with the demand,	
			pages, received on with the letter of	
		the drawings,	pages , as originally filed,	
			pages, filed with the demand,	
			pages, received on with the letter of	
		the sequence list	ing part of the description:	
, <i>i</i>			pages , as originally filed	
			pages, filed with the demand	
			pages, received on with the letter of	
2.			guage, all the elements marked above were available or furnished to this Authority in the language in	
			application was filed, unless otherwise indicated under this item. vailable or furnished to this Authority in the following language which is:	
	These		translation furnished for the purposes of international search (under Rule 23.1(b)).	
		0 0	publication of the international application (under Rule 48.3(b)).	
		• • •		
		the language of t and/or 55.3).	he translation furnished for the purposes of international preliminary examination (under Rules 55.2	
3.		ith regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:		
		•	international application in written form.	
		filed together wi	th the international application in computer readable form.	
)		furnished subseq	quently to this Authority in written form.	
		furnished subseq	uently to this Authority in computer readable form.	
			at the subsequently furnished written sequence listing does not go beyond the disclosure in the lication as filed has been furnished.	
		The statement the	at the information recorded in computer readable form is identical to the written sequence listing has	
4.		The amendments	s have resulted in the cancellation of:	
	. —	the desc	cription, pages	
		the clair	ms, Nos.	
		the drav	wings, sheets/fig.	
5.			been established as if (some of) the amendments had not been made, since they have been considered to isclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**	
*	Re _r	placement sheets w port as "originally f	hich have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this iled" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).	
**	An	v replacement shee	t containing such amendments must be referred to under item I and annexed to this report	

International application No.

PCT/AU2003/000466

v.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations	
	and explanations supporting such statement	

1. Statement					
	Novelty (N)	Claims 1-37	YES		
		Claims	NO		
	Inventive step (IS)	Claims 1-37	YES		
		Claims	NO		
	Industrial applicability (IA)	Claims 1-37	YES		
		Claims	NO		

2. Citations and explanations (Rule 70.7)

NOVELTY(N) and INVENTIVE STEP (IS): Claims 1-37

The claimed invention is directed to a process for the preservation of plant materials comprising the steps of crushing the plant materials to separate a juice portion and a pulp portion, thermally dewatering said pulp portion to form a dewatered pulp, concentrating said juice portion to form a syrup, and combining said dewatered pulp and said syrup to form a preserved plant material.

No individual citation or obvious combination of citations cited in the ISR teaches or fairly suggests all of the features of the claims. Therefore claims 1-37 are novel and have an inventive step.

INDUSTRIAL APPLICABILITY (IA): Claims 1-37

Claims 1-37 have industrial applicability
